

The Flipped Impact Suite

Online Flipped Arrangements to make education in Covid Times
relevant, exciting and instructive.

The Flipped Impact Model

- Flexible
- Learner Oriented
- Interactive
- Purposeful

Online LTT The Netherlands Stage Remember, understand, apply

- Pre-class

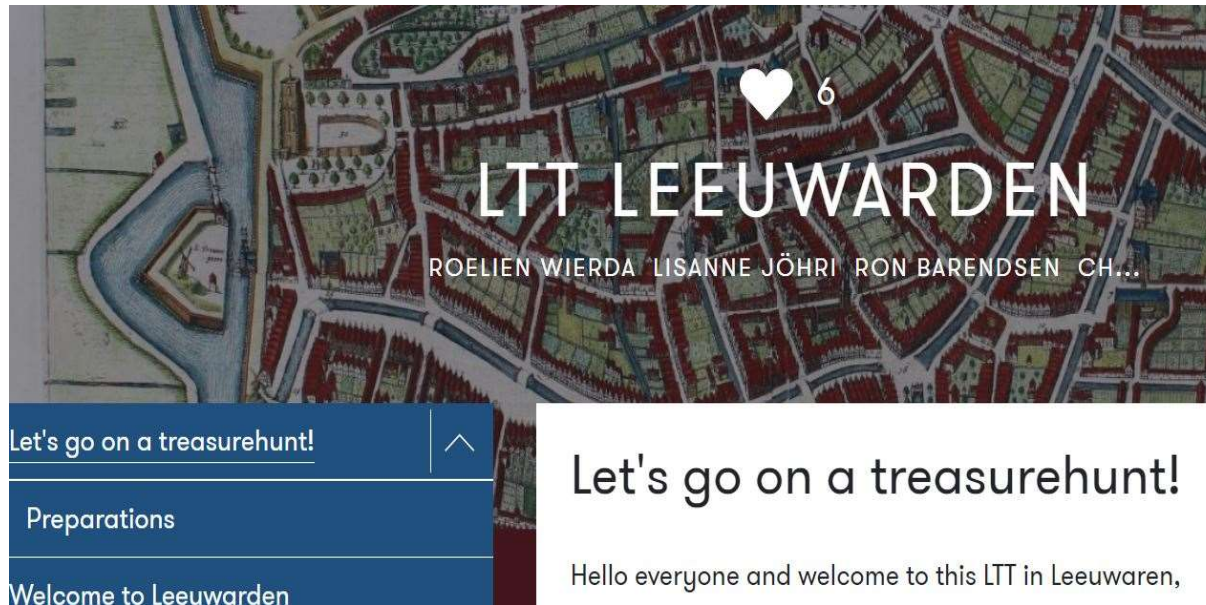

- In (online) class

K12 students of 4 nationalities introduce themselves via Teams, moderated by preservice students

K12 students play the guessing game, using vocab and grammar they studied in the flipped course.

Online LTT The Netherlands: Synthesis

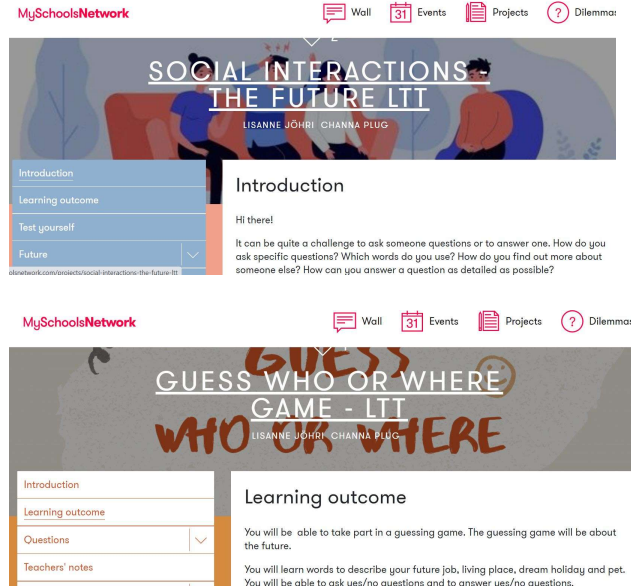

K12 students from 4 different countries go on a treasure hunt, working in mixed groups. Preservice students act as hosts in pairs. The team that has won all 11 crosses and found the treasure is the winning team.

Students apply everything they have learnt in the first and second stage of this flipped learning arrangement.

Online LTT Spain Stage

Remember, understand, apply

- Pre-class

- In (online) class

K12 students of 4 nationalities play a new guessing game featuring the future tense as studied via the flipped courses created by the international team of preservice students. The session is moderated by preservice students

Online LTT Spain : Remembering

K12 students are informed that they will play an online escape room. They need to study the flipped course about the past tense, historical persons, places and objects from 5 different countries in order to be successful.

Online LTT Spain: Application and Synthesis

K12 students play the online escape room: the written history of the 4 participating countries plus the UK has been hacked. The K12 students have to beat the hacker by applying the knowledge from the flipped course, by collaborating and by problem solving skills. The team that cracks the code first is the winner.
